I am Haris Ibragić, a skilled React frontend developer with extensive experience in building modern web applications. I specialize in creating intuitive and responsive user interfaces using JavaScript, HTML, CSS, and Redux. I am detail-oriented, passionate about clean code, and collaborate effectively with teams to deliver high-quality products. My dedication to continuous learning and improvement makes me a valuable asset to any development team.

Work experience

FRONT-END DEVELOPER   Sep 2022 - Jul 2024
Novi Pazar

React front-end developer, web developer   Sep 2024 - Jul 2024
Novi Pazar

Education and Qualifications

ELEGANT CODE SCHOOL, Novi Pazar   Sep 2020 - Jul 2022

1. **During my time at Elegant Code School, I workedon various project, including web shops and complete React applications using Redux Toolkit. Proficient in JavaScript, HTML 5, CSS 3 and Redux, I focus on creating modern web applications with exceptional user experiences project.**
2. **I worked on a project similar to a developer recruitment platform. During the development of this platform, I utilized the new Redux Toolkit for state management. The platform was designed to streamlinethe process of hiring developers, allowing for efficient searching and filtering of candidates, reviewing their skills and experiences, and facilitating easy communications between employers and cadidates. The intergration of Redux Toolkit enabled optimized state management, resultating in a faster and more reliable user experience.**
